NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Accounting Practices, Impact of NAIC/State Differences

Republic Mortgage Insurance Company (the “Company” or “Republic”) prepares its statutory financial statements in accordance with the National Association of Insurance Commissioners’ (“NAIC”) Accounting Practices and Procedures Manual (“NAIC SAP”), and in conformity with accounting practices prescribed or permitted by the North Carolina Department of Insurance (“NCDOI”). Prescribed statutory accounting practices are those policies that are incorporated directly or by reference in state laws, regulations, and general administrative rules applicable to all insurance enterprises domiciled in a particular state.

The material increases in mortgage guaranty insurance claims and loss payments that began in 2007 gradually depleted the Company’s statutory capital base and forced it to discontinue writing new business. The insurance laws of 16 jurisdictions, including the Company’s domiciliary state of North Carolina, require a mortgage insurer to maintain a minimum amount of statutory capital relative to risk in force (or a similar measure) in order to continue to write new business. The formulations currently allow for a maximum risk-to-capital ratio of 25 to 1, or alternately stated, a “minimum policyholder position” (“MPP”) of one-twenty-fifth of the total risk in force. The failure to maintain the prescribed minimum capital level in a particular state generally requires a mortgage insurer to immediately stop writing new business until it reestablishes the required level of capital or receives a waiver of the requirement from a state’s insurance regulatory authority. The Company breached the minimum capital requirement during the third quarter of 2010. The Company had previously requested and, subsequently received waivers or forbearance of the minimum policyholder position requirements from the regulatory authorities in substantially all affected states. Following several brief extensions, the waiver from its domiciliary state of North Carolina expired on August 31, 2011, and the Company and its sister company, Republic Mortgage Insurance Company of North Carolina (“RMICNC”), discontinued writing new business in all states and limited themselves to servicing the run-off of their existing business. They were placed under the NCDOI’s administrative supervision the following year and ultimately ordered to defer the payment of 40% of all settled claims as deferred payment obligations (“DPO”). Supervision, among other considerations, requires written approval of the NCDOI Commissioner or its appointed representative for supervision for certain Company activities and transactions, including the incurrence of any debt or other liabilities, lending of its funds, and the termination of or entry into new contracts of insurance or reinsurance.

On June 27, 2014, the NCDOI issued a Final Order approving an Amended and Restated Corrective Plan (the “Amended Plan”) submitted jointly on April 26, 2014, by Republic and RMICNC. Under the Amended Plan, Republic and RMICNC were authorized to pay 100% of their DPOs accrued as of June 30, 2014 and to settle all subsequent valid claims entirely in cash, without establishing any DPOs. In anticipation of receiving this Final Order, ORI invested \$125 million in cash and securities in Republic in June 2014. In mid-July 2014, in furtherance of the Final Order, Republic processed payments for substantially all of its accumulated DPO balances relating to fully settled claims charged to periods extending between January 19, 2012 and June 30, 2014. The Company and RMICNC remain under the supervision of the NCDOI as they continue to operate in run-off mode. The approval of the Amended Plan notwithstanding, the NCDOI retains its regulatory supervisory powers to review and amend the terms of the Amended Plan in the future as circumstances may warrant.

The NCDOI has a right to permit other specific practices that may deviate from prescribed practices. No permitted or prescribed statutory accounting practices are used in the preparation of these statutory financial statements that deviate from NAIC SAP.

D. Going Concern

The Company has continually evaluated the potential long-term underwriting performance of the run-off book of business based on various modeling techniques. Such models were considered by the NCDOI in reaching their conclusions set forth in the orders described above. The resulting models take into account actual premium and paid claim experience of prior periods, together with a large number of assumptions and judgments about future outcomes that are highly sensitive to a wide range of estimates. Many of these estimates and underlying assumptions relate to matters over which the Company has no control, including: 1) The conflicted interests, as well as the varying mortgage servicing and foreclosure practices of a large number of insured lending institutions; 2) General economic and industry-specific trends and events; and 3) The evolving or future social and economic policies of the U.S. Government vis-à-vis such critical sectors as the banking, mortgage lending, and housing industries, as well as its policies for resolving the insolvencies and assigning a possible future role to Fannie Mae and Freddie Mac. These matters notwithstanding, it is possible that the operating results could nonetheless be negative in the near term.

Absent substantial capital additions and future regulatory and other approvals, the ability of the Company to reemerge as an active underwriter of new business is highly doubtful. The orders described above could be amended or withdrawn by the NCDOI at any time. Accordingly, there can be no assurance that the conditions or the duration of the run-off of the Company’s business will remain unchanged or that it will remain under supervision rather than in receivership.

The above circumstances raise substantial doubt about the Company’s ability to continue as a going-concern. However, the accompanying financial statements have been prepared on the assumption that the Company will continue as a going concern. Under this assumption the Company contemplates the realization of assets and liquidation of liabilities in the ordinary course of running off the business over several years. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

G. Other Contingencies

In the normal course of business, the Company is subject to various contingent liabilities, including possible income tax assessments resulting from tax law interpretation or issues raised by taxing or regulatory authorities in their regular examinations or failure to collect all amounts on its investments or balances due from assureds and reinsurers. The Company does not have a basis for anticipating any significant losses or costs that could result from any known or existing contingencies.

Legal proceedings against the Company routinely arise in the normal course of business and usually pertain to claim matters related to insurance policies and contracts issued by the Company. Other, non-routine legal proceedings which may prove to be material to the Company are discussed below.

On December 30, 2011 and on January 4, 2013, purported class action suits alleging RESPA violations were filed in the Federal District Court, for the Eastern District of Pennsylvania targeting Republic, other mortgage guaranty insurance companies, PNC Financial Services Group (as successor to National City Bank) and HSBC Bank USA, N.A., and their wholly-owned captive insurance subsidiaries. (White, Hightower, et al. v. PNC Financial Services Group (as successor to National City Bank) et al.), (Ba, Chip, et al. v. HSBC Bank USA, N.A., et al.). The lawsuits are two of twelve against various lenders, their captive reinsurers and the mortgage insurers, filed by the same law firms. All of these lawsuits were substantially identical in alleging that the mortgage guaranty insurers had reinsurance arrangements with the defendant banks' captive insurance subsidiaries under which payments were made in violation of the anti-kickback and fee splitting prohibitions of Sections 8(a) and 8(b) of RESPA. Ten of the twelve suits have been dismissed. A class has not been certified in either remaining suit. Those two suits seeking unspecified damages, costs, fees and the return of the allegedly improper payments were settled with an agreement to make nominal payments.

On July 5, 2016, Ocwen Loan Servicing, LLC and Homeward Residential, Inc. (collectively, "Ocwen") filed an amendment to an initial complaint against Republic Mortgage Insurance Company and Republic Mortgage Insurance Company of North Carolina (collectively, "RMIC"). The suit, which is captioned Ocwen et al. v. RMIC et al., is pending in the General Court of Justice, Superior Court Division for Forsyth County, North Carolina. The amendment for the first time identifies specific mortgage insurance certificates as to which Ocwen alleges breaches of contract, bad faith and violations of certain fair claims settlement practices laws and seeks declaratory relief in regard to certain claims handling practices on future claims. RMIC believes the suit is without merit and intends to defend vigorously.

An estimated loss is accrued only if the loss is probable and reasonably estimable. The Company has defended and intends to continue defending vigorously against each of the aforementioned actions. The Company does not believe it probable that any of these actions will have a material adverse effect on its financial position, results of operations, or cash flows, though there can be no assurance in those regards. The Company has made an estimate of its potential liability under certain of these matters, all of which seek unquantified damages, attorneys' fees, and expenses. Because of the uncertainty of the ultimate outcomes of the aforementioned disputes, additional costs may arise in future periods beyond the Company's current reserves. It is also unclear what effect, if any, the run-off operations of the Company and its limited capital will have in the actions against it.

NOTES TO FINANCIAL STATEMENTS

At September 30, 2016 the Company had admitted assets of \$10,092,242 in premiums receivable due from mortgage servicers and ceding insurers. The Company routinely assesses the collectibility of these receivables and believes the potential for any loss is not material to the Company’s financial condition

20. Fair Value Measurements

- A. Inputs Used for Assets and Liabilities Measured at Fair Value

- 1) Items Measured and Reported at Fair Value by Levels 1, 2 and 3

Fair value is defined as the estimated price that is likely to be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants (an exit price) at the measurement date. A fair value hierarchy is established that prioritizes the sources (“inputs”) used to measure fair value into three broad levels: inputs based on quoted market prices in active markets (“Level 1”); observable inputs based on corroboration with available market data (“Level 2”); and unobservable inputs based on uncorroborated market data or a reporting entity’s own assumptions (“Level 3”). Following is a description of the valuation methodologies used for securities measured at fair value.

The Company principally uses quoted values and other data provided by nationally recognized independent pricing sources as inputs into its quarterly process for determining fair values of its bonds and common stock securities. To validate the techniques or models used by pricing sources, the Company’s review process includes, but is not limited to: (i) initial and ongoing evaluation of methodologies used by outside parties to calculate fair value, and (ii) comparing other sources including the fair value estimates to its knowledge of the current market and to independent fair value estimates provided by the investment custodian. The independent pricing source obtains market quotations and actual transaction prices for securities that have quoted prices in active markets and uses its own proprietary method for determining the fair value of securities that are not actively traded. In general, these methods involve the use of “matrix pricing” in which the independent pricing source uses observable market inputs including, but not limited to, investment yields, credit risks and spreads, benchmarking of like securities, broker-dealer quotes, reported trades and sector groupings to determine a reasonable fair value.

Level 1 securities include U.S. Treasury notes, publicly traded common stocks and most short-term investments in highly liquid money market instruments. Level 2 securities generally include corporate bonds, municipal bonds, and certain U.S. government agency securities. The Company held no securities classified within Level 3 as of September 30, 2016.

The following table shows a summary of assets measured and reported at fair value segregated among the various input levels described above:

	Fair Value Measurements as of September 30, 2016:			
	Level 1	Level 2	Level 3	Total
Bonds and notes:				
Industrial and miscellaneous bonds	\$ -	\$ 20,778,302	\$ -	\$ 20,778,302
Common stocks - non-affiliated	34,888,914	-	-	34,888,914

- C. Fair Values for All Financial Instruments by Levels 1, 2 and 3

The following table reflects the fair values and admitted values of all admitted assets and liabilities that are financial instruments, excluding those accounted for under the equity method. The fair values are segregated among the various input levels described above:

	Aggregate	Admitted			
September 30, 2016:	Fair Value	Value	Level 1	Level 2	Level 3
Bonds - non-affiliated	\$ 494,204,919	\$ 485,711,826	\$ 4,936,234	\$ 489,268,685	\$ -

23. Reinsurance

E. Commutation of Ceded Reinsurance

Commutation of reinsurance in 2016 with Provident Recipricol Insurance Exchange had the following impact on pretax income:

Premiums earned	\$	(55,785)
Decrease to net underw riting gain	\$	(55,785)

24. Retrospectively Rated Contracts and Contracts Subject to Redetermination

Not applicable.

25. Changes in Incurred Losses and Loss Adjustment Expenses

	September 30, 2016
Reserves for unpaid losses and LAE at the beginning of the period, net of reinsurance losses recoverable of \$117,390,244	\$ 460,753,211
Incurred losses and LAE:	
Provision for insured events of the current year	69,998,093
Change in provision for insured events of prior years	(41,376,434)
Total incurred losses and LAE	28,621,659
Paid losses and LAE attributable to:	
Insured events of the current year	2,894,495
Insured events of prior years	156,613,924
Total payments	159,508,419
Reserves for unpaid losses and LAE at the end of the period, net of reinsurance losses recoverable of \$86,726,476	\$ 329,866,451

In common with all other insurance lines, mortgage guaranty paid and incurred claim and claim adjustment expenses include only those costs actually or expected to be paid by the Company. Changes in mortgage guaranty aggregate case, IBNR, and loss adjustment expense reserves entering into the determination of incurred claim costs, take into account, among a large number of variables, claim cost reductions for anticipated coverage rescissions and claims denials. Favorable development resulted in varying degrees by differences between actual claim settlements relative to expected experience and by subsequent revisions to assumptions in regards to claim frequency, severity or levels of associated claim settlement costs which result from consideration of underlying trends and expectations.

The provision for insured events of the current year was reduced by an estimated \$5.5 million as a result of actual and anticipated rescissions and claim denials. The provision for insured events of prior years was increased by an estimated \$12.7 million as a result of actual rescission and claim denial activity or revisions in assumptions regarding expected rescission or denial rates on outstanding prior year delinquencies. Rescissions and claim denials reduced the Company's paid losses by an estimated \$7.5 million.
