Now with MI Underwriting Eligibility and Click-Through MI Ordering!

Dealing with constantly changing eligibility guidelines and pricing parameters can be overwhelming.

RMIC has made significant upgrades to our Rate Estimator to make your job easier and make you more efficient.

Now you can provide premium rate estimates and validate eligibility with confidence!

Underwriting Eligibility

RMIC's Rate Estimator now makes it easier than ever to determine whether your loan qualifies for RMIC Mortgage Insurance.

Simply complete the required data fields and submit your request for an MI Underwriting Eligibility indication.

If RMIC's systems determine that your loan appears to qualify for RMIC Mortgage Insurance, you will also receive a Mortgage Insurance premium estimate.

Click-Through MI Ordering

Once it is determined your loan appears to meet RMIC's standard Underwriting Guidelines, it's easy to place your order for RMIC Mortgage Insurance. Simply click the "Order Mortgage Insurance" button to use RMIC's ELS to complete and submit your order. All of the loan data entered in RMIC's Rate Estimator is automatically transferred to ELS, saving you time and effort.
