

## NEW & IMPROVED ELS® FEATURES INCREASE PRODUCTIVITY

On February 1, RMIC is introducing a new version of ELS providing enhanced features to speed and simplify loan submissions and give you more control for faster responses to your RMIC Mortgage Insurance orders. We're also expanding ELS product offerings to include Contract Underwriting and full package mortgage insurance submissions in one convenient location.

### More Information and More Control

- **New service options:** Order non-delegated full-case Mortgage Insurance and Contract Underwriting online.
- **No more faxing:** Upload loan documents using the new integrated secure upload tool. Uploaded documents automatically enter the underwriting queue with no delays caused by faxing or hard copy delivery.
- **Order status tracking:** Enhanced Case Queue lets you view the status of your order.
- **Applications populated automatically:** Mortgage Insurance and Contract Underwriting applications are generated on the user interface with no need to fax or upload a request form.
- **Immediate RMIC loan number confirmation:** Returned instantly following new document uploads along with links to service results and ability to view previously uploaded documents.
- **View your loan file:** Uploaded loan files automatically sorted and indexed for easy access later.
- **On demand fax cover sheet:** If a document needs to be faxed, generate a cover sheet with borrower information and loan number populated from information entered.

### Getting Started Couldn't Be Easier

Already use ELS? No changes are required on your part. At your first log in on February 1, these new enhancements will be waiting for you.

Not a current ELS user? Try it today! To setup a new account, click [here](#) and complete the New User Enrollment screen.
